Background target scan on U3, $GR=18.5$

JJW

814	0
825	3
835	40
845	170
855	245
865	150
852	250

Run 1941 test run on U3, $GR=18.5$

Wrong energy range and winshift

17:40

Run 1942 another test run

JJW

I removed strip 15 from the analysis. The energy calibration is way off. I also removed strip 1 to keep the left-right acceptance similar, ~~for what~~
